

Accessibility Statement

Franklin Savings Bank

Introduction

The purpose of this document is to draft an accurate and helpful Accessibility Statement for use on the rebuilt Franklin Savings Bank website.

From the World Wide Web Consortium's (W3C) Web Accessibility Initiative (WAI) documentation covering developing an accessibility statement:

Accessibility statements are important for several reasons:

- Show your users that you care about accessibility and about them
- Provide them with information about the accessibility of your content
- Demonstrate commitment to accessibility, and to social responsibility

In some situations, you may be required to provide an accessibility statement, such as public bodies in countries that implement the [EU Web Accessibility Directive](#). The W3C list of [Web Accessibility Laws & Policies](#) can help you identify policies applicable to you.

Accessibility Statement

Accessibility Statement

Franklin Savings Bank is committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone, and applying relevant accessibility standards.

Conformance status

The [Web Content Accessibility Guidelines \(WCAG\)](#) defines requirements for organizations to improve accessibility for people with disabilities. There are three levels of WCAG conformance: Level A, Level AA, and Level AAA. Franklin Savings Bank's website is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.

Feedback and content accessibility requests

We welcome your feedback on the accessibility of the Franklin Savings Bank's website. Please let us know if you encounter accessibility barriers on our website or would like to request content in an accessible format, including the following information if applicable:

- the web address (URL) of the content
